IFX Markets, Inc., a leading provider of online foreign exchange trading, will attend its second consecutive Middle East Forex Expo. Following the very successful inaugural show last March, IFX looks to build on its already strong regional presence by showcasing the latest version of our ICTS trading platform and by seeking new regional business relationships at the expo. Attendees can learn how to mobile trade, trade from charts and program indicators on IFX's innovative trading platform. In addition, those attendees already in the FX market who wish to learn more about our regional business relationship program can do so by stopping in at the IFX Markets booth (#23). The show will be in Abu-Dhabi this November 27-28, 2007.

With offices in Boston, London and Shanghai, IFX Markets' global presence is a testament to our trade execution, fixed spreads and exceptional client service. As more and more individuals and firms trade currencies, IFX aims to educate and assist expo participants with information about the world's largest market. Our professional account executives will show you how to use the trading platform, answer questions about the market and discuss the latest trends in the Forex market. To meet the growing demands of the region, IFX offers fully Islamic compliant accounts for our Middle Eastern clientele.
